The Dangers of Cape Horn in Winter.

The clipper ship Ocean Express, 1,792 tons, commanded by Capt. Watson, arrived at San Francisco on the 2d instant from New York. The mate gives the following interesting particulars of the voyage:

The Ocean Express sailed from New York on the 7th of last June, and had fine weather down to south latitude 37° 17'. Then the vessel had variable weather from the 29th of July to the 15th of August. An account of the weather for two or three days will suffice to give an idea of a Cape Horn winter.

A terrible gale had been blowing for many days, but on the 15th of August the wind increased to a violent tempest of rain, hail and snow. The sea was running fearfully, and the decks, rigging and sails were covered with a mass of ice. For over four hours the ship was let drive before the wintry tornado before sail could be reduced and the vessel brought head to wind. The weather was excessively cold, and the decks had from 2 to 5 feet of water on them all the time. "The crew," to use the language of the chief officer, "were completely used up. They had scarcely any clothes, and most of them had their hands and feet frozen." All next day the weather continued the same. From 7 o'clock. a. m., to 11 p. m., the pumps were worked without intermission—all that time not even getting "rolling suck." The wind lulled again for a few hours, and then it recommenced and blew harder than ever. The pumps were kept going every moment, and the crew were up to their waists in the freezing water.

On the 16th, a protest against attempting to proceed farther on the voyage was drawn up by a passenger, Mr. Malcolm, and signed by the crew and some of the officers. The crew stated that they were perfectly exhausted and could not perform their duty any longer. It was decided to try the weather a few days longer before putting about.

The day broke on the 17th, with a violent tempest from the southward and westward, bringing along with it sleet, hail and snow. The sea was running in the most awful manner and continually broke over the ship, filling the decks and washing the men from the pumps. Several attempts were made to start the small engine which the vessel carries to work the pumps, hoist in and out the cargo and masthead the topsail yards, but the sea washing into the engine room put out the fires. The whole crew were now suffering in a most dreadful manner from the cold, and the cabins and forecastle were flooded all the time with water. Mrs. Watson, the captain's wife, was up for over 48 hours, assisting some of the crew to bail out the cabins. The passengers, captain and mates worked at the pumps with the men. About midnight of the 17th the head of the maintopsail was blown from the jackstays, the earing holding on. The immense weight at the ends of the yard carried it away in the truss. In falling it dragged with it the upper main-topsail yard, and the wreck of the two huge spars and sails fell with a crash down abaft the main yard and backstays, and there they hung suspended, swinging and grinding about at every roll of the ship. Out of a crew of 28 able-bodied seamen, only six were capable of performing duty, and but two of these were able to go aloft. The rest were all down with frozen hands and feet.

At noon of that awful Sunday the icy storm continued. The sea rose to a great hight, and broke over the ship fore and aft, completely submerging the crew, who were lashed to the pumps, which were obliged to be kept constantly going to keep the ship free of water. The port pump was so badly choked as to be of little use. At midnight the lower foretopsail was blown from the gaskets and went to ribbons. Shortly after this a sea was shipped that started the spare spars adrift, tearing up with them the deck jackstays and huge iron eyebolts to which they were secured. Another sea swept everything off the poop. Between twelve and one o'clock on that fearful night the captain went to awaken the mate, who was so much exhausted that he could keep the deck no longer, and told him that he believed the vessel was water-logged. The mate immediately got up and attempted to get all the crew out to the pumps; but there was so much water on deck that it was impossible to sound them. "Never," said the first officer, "during all my sea experience, have I known the wind to blow with so great violence as it did during the first sixteen hours of that terrible Sunday."

During the latter part of the next day, Monday, 18th August, the storm somewhat abated, but still the wind blew tempestuously. The crew were so much discouraged that they preferred, they said, to die rather than have their present sufferings continue. At 6 o'clock in the morning, part of the crew were sent below to get a little rest. Their bedding was completely saturated with water, and not one of them had dry clothes to put on. "Their case," says the first officer, "was indeed deplorable. Many of them had their hands and feet so badly frozen that they were unable to put on their boots; and we could not get them on deck without using the severest violence. They would crawl into their wet, freezing berths, and I and the other officers were obliged to drag them on deck by force." At one time it took all hands over two hours to brace the yards in, so as to get the ship head to wind.

On Tuesday, 19th August, Capt. Watson, after consulting his officers, concluded that it was best for the interest of all concerned to keep the ship away for the Falkland Islands, which was accordingly done. For several days more they had a succession of hard gales and snow storms. On Friday, the 22d, the ship was found to be too far to leeward to make the Falklands, and so they bore up for Rio de Janeiro, where they arrived on the 5th of September. After anchoring in that harbor it was found that sixteen of the crew were helpless from frozen hands and feet. Some of them were so badly frozen that the flesh came off their arms and feet, and even the joints of the fingers and toes dropped off.

They were all sent to the United States Hospital.

The ship being refitted, sailed again for this port on the 17th of October, and arrived here without encountering further trouble. Capt. Watson reports that 17 vessels put back to the Falkland Islands, to escape the dreadful storms which he attempted to weather. The clipper ship Reporter foundered in the gale which came so near wrecking the Ocean Express.

Notwithstanding the terrible weather which the Ocean Express encountered, she is discharging her cargo in much better condition than could be expected.

The Distress in Lancashire and its Teachings.

The poet who sang the "sweet uses of adversity" was undoubtedly a philosopher, and one of the very best school, too. Even from this dreadful calamity that has befallen England as a consequence of that yet more serious calamity that has fallen upon ourselves, many useful lessons may be educed—many "sweet uses" has the bitterness of the hour taught the world. I will not say that the patience and endurance of so vast a mass of starving humanity has never been paralleled, and I should be loth indeed to have it inferred that such kindness and charity, as the rest of the British community has shown for the sufferers, may not be equalled or even exceeded by other communities. But without instituting comparisons, I may appeal to the opinions expressed by cotemporary nations, that Lancashire has furnished an example of forbearance and endurance of which the world in general, for the sake of our common humanity, may well be proud, and that the evil hour in Britain has evoked a spirit of goodness that tells of a well-knit nation, whose integrity it would be indeed difficult to shake. It is true that

"Darkness shows us worlds of light
We never saw by day;"

for not only has this distress wakened up sympathies that must go far to ennoble a people, but it has raised a spirit of independence that affords the best security for liberty. It is the fixed determination of the British people that this national distress which has fallen upon its victims through no rashness or misconduct of their own, shall be relieved by the spontaneous contributions of the nation at large, without any appeal for government aid. To this end men of all parties, and of every creed in religion, unite their efforts. Politically speaking, the feud between the men of Manchester school and the Tories of Britain was as intense as political feuds well can be in the present day in a country like this; but where is that misunderstanding now? The very life and soul of the movement for alleviating the distress—the hard-working, free-contributing man—who has done, and is doing most, to mitigate the horrors of the visitation which Manchester now suffers from, is the Earl of Derby, leader of the Tory party of England, and an aristocrat among aristocrats. Interwoven in every page of English history is the name of Stanley. Bold Barons of the name have fought in every battle on English ground with which American readers are most familiar. Shakespeare will connect it in their recollection with Bosworth Field and other wars of the Roses. Scott links the name with Flodden, and tells us of the state of the proud house of Derby in his *Peveril of the Peak*. But no prouder name will England recognise in connection with this proud house, that dates its nobility since 1485, then that of Edward Geoffry, fourteenth Earl, who has so nobly thrown himself forward in the Christian labor of relieving the distressed. Lancashire itself has been unjustly taunted with having shifted too heavy a share of its responsibilities on the shoulders of the rest of the country, but from this unmerited reproach Lord Derby has nobly defended it. At a meeting called at Manchester last Tuesday, at which Earl Sefton presided, Earl Derby took up the defence for Cottonopolis, showing what noble sacrifices had been made by mill-owners, who never made known the good they had done and were doing. A subscription was raised in the room amounting to $300,000, Lord Derby heading the list with a contribution of $25,000. Out of doors this contribution was raised to $700,000, and this is in addition to $2,000,000 previously raised by Lancashire, and independent of a weekly expenditure of £85,000 in the shape of poor rate. What the amount may be that the rest of the Empire has contributed or has in prospect, there is no precise data upon which we can yet calculate; but it may be noted that the colonies have nobly sent us the sum of $500,000, and there can be no doubt but what the amount asked for by Mr. Cobden will be readily raised, though it is as high as $5,000,000. More, indeed, will be forthcoming, if it is needed; but the shrewdest and best informed among the manufacturers are certain that by the month of March next the price of cotton in the Liverpool market will be down to a figure that will admit of the mills being worked at least four days a week, when, of course, the demand upon the charity of the country will cease. - *S. F. Bulletin.*

European Selections.

It continues to be asserted that the recent Cabinet Councils were partly occupied with the question of a reduction of expenditure. One account fixes the amount of reduction proposed for the next financial year at two millions.

Going Great Lengths. — It requires $4,000,000 per day to carry on our expenses. Four million dollar bills placed lengthwise will extend 431 miles. In 54 days they would extend round the globe. In one year it would form a belt of dollar bills about 20 inches wide which would extend round the entire globe of 24,000 miles. It would require a railroad train to run 12 hours per day, and at the rate of 36 miles per hour, to keep up the line of one dollar bills issued daily to meet the expenses of the war.—*New York World.*

The Sumass.—Mr. Miller, who with his wife and family settled in this district last summer, is in town on his way to Oregon for the purpose of purchasing stock, seeds, etc. We believe it his intention to go into farming on a pretty large scale, for which he considers the land in that locality well adapted. There are several parties about to go from here to take up land at the mouth of the Harrison. We have little doubt that in a very few years the banks of the Lower Fraser will be one continuous settlement from Harrison to the Gulf of Georgia.—*British Columbian.*

ROYAL MAIL
Steam Packet
Company's Agency,
For British Columbia & Vancouver Island.
OFFICE, MACDONALD & CO., BANKERS,
Yates Street.
THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad.
The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.
Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France
Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

The News.

The news, whether from the States, Mexico, or Europe, is not of a very startling character. Burnside and Lee still face each other, from the opposing banks of the Rappahannock. Lee is credited with an intention of waging an offensive warfare; and Burnside has massed his artillery at the fords, and prepared pontoon bridges, as though he designed visiting Richmond. Which story to believe, is somewhat difficult to determine. If Lee intends to advance, his destination is not Maryland; that would be somewhat difficult at this season of the year. The roads are unfavorable to a tour like that taken last summer. His advancing at all would be either to force Burnside back to Washington, or into the transports at Acquia Creek. The massing of artillery at the fords may be to meet Lee's army, rather than to protect the crossing of the Federal army. One thing Burnside cannot do—he cannot long remain inactive. When he made his unfortunate attack on Lee in December, it was done with the concurrence of the North. Richmond still is the Confederate capital; and until the Federal army goes there either as conquerors or as prisoners, the North will persist in its war-cry, "On to Richmond!" The temper of the Northern people is certainly favorable to Burnside's advance, and possibly that is the strongest evidence that a forward movement is contemplated. We have grave doubts whether Burnside really means to cross the Rappahannock at present. If Lee's men are stretched along the railroad, they can soon be brought within striking distance; so, at the utmost, a Federal advance can only be contemplated in order to keep Lee's army together, so that Bragg cannot be reinforced.

No later news of importance is received from Rosecrans or Bragg, or from Vicksburg. Advices by the next steamer ought to bring us something interesting from the South West, if not from the direction of Richmond. Gold commands a premium of forty-seven per cent. in New York. That is not very favorable to the advance on Richmond; at least Wall Street does not repose much faith n Burnside soon getting there.

From England matters appear pacific. The meeting of Parliament a month or six weeks earlier than usual has its significance. Whether it is the civil war in the States, or the condition of Greece, or the necessity of aid to the suffering operatives in Lancashire, that has brought about so early a session, we are not informed; but it is not improbable that the distress in Lancashire has much to do with it.

Necessity for a Gold Escort.

The fact that these Colonies are and must for some time to come be nearly altogether dependant upon other countries for supplies of food and manufactured articles consumed here, will have the tendency to keep up a pretty constant indebtedness towards our foreign creditors. This we must meet in a great measure by remittances of treasure, or through our exports. The latter, though increasing, are as yet totally insufficient for the purpose. Treasure then must be the chief return rendered by us in payment for our goods. As it is between Victoria and her creditors, so it is between her and the upper country. She is the medium through which they must derive their supplies. To her they must remit the money to pay for them. Upon the maintenance then of proper facilities of communication depend the satisfactory relations of all three. A want in this respect between any two of them is sure to effect the third most sensibly. Any stoppage in the regular transmission of treasure from above, must have the effect to some extent, of causing a depletion of the capital necessary for our local use, in order to meet the demand of foreign creditors. The people in town talk of money being tight, and often with good reason. We have had too many of those periods of temporary pressure in business. The absence of remittances from the upper country has been too much the normal state of things, not to attract serious notice. It was felt to such extent for a portion of last summer as to occasion considerable inconvenience; and this, notwithstanding the large amount of money brought into the country by strangers. This year, unless something is done to remedy matters, the same evils will be repeated, and it may be with much worse results, as it is doubtful whether the population will continue to flow in as rapidly this season as last. There can be no doubt but that a much greater amount of treasure will be taken out of the mines during the coming summer than has been the case in any previous year, but of what avail will that be during many months unless it finds its way down here. It would be no great consolation for men here to know that there was gold enough taken out to pay for the goods sent up the country but awaiting transmission, while their creditors at San Francisco required the amount of their bills. It is, therefore, a matter of the highest importance that steps should be taken before the season opens for providing safe and rapid means of having treasure transmitted from the mines and the various points along the route down, at regular and frequent intervals. We cannot close our eyes to the fact, that without some such provision it will be impossible to derive from our mines that benefit which we ought to expect. Last year's experience is sufficient to teach us that there are dangers to be encountered in the upper country, that it involves too much risk to life and property to attempt to travel with any large sum of money unless in company with a sufficiently strong party. There are always some desperadoes in mining countries who will not hesitate at the committal of crime to gain their ends, and the only wonder is that we have been so little troubled with them. That little, however, is quite enough, and we must take means to do away with it. One of the principal objects for which men have constituted government is, as we all know, for the protection of life and property; where they are insecure, the chief power of the State has failed in its duty, and continues to do so, as long as the evil is suffered to remain. In vain may the Governor send home despatches containing glowing accounts of the flourishing state of that Colony—of the improvements that have been effected under his Government, when he cannot deny that the danger and risk attending sending down here the produce of the mines has had the effect of keeping it lying there useless till the end of the season. This fact alone is sufficient to show how sadly things have been hitherto neglected. It is high time a change took place. The prosperity of the colony ought not to be any longer hampered by the want of proper management on the part of those in power. A want exists and it should be remedied. What it is we have shown. The public are well aware of it. They feel its evil effects and demand their removal.

PIMPLES ON THE FACE.—HOW often we hear the remark, "I would give worlds if these pimples on my face were gone." ow, friend, you are not called upon to give worlds, but if you will give a dollar those pimples can every one be obliterated; they proceed from a humor in the blood, that SCOVILL'S BLOOD AND LIVER SYRUP will drive out, and your skin will become like alabaster. Surely you cannot doubt this, when the worst cases of Scrofula and Erysipelas are cured by the use of from one to three bottles. We believe in the Syrup, and wish others to join us in the belief. HOUSE OF ASSEMBLY.

MONDAQ, Feb., 2d, 1862.

House met at 3 45 p.m. Present.—The Speaker and Messrs. Foster. Tolmie, Cary, Trumble, Burnaby, and Franklin.

Mr. Foster, Chairman of the Select Committee, reported that they had considered the bill to establish by-laws for the Gas Company &c., and found that the standing orders had been complied with.

House in Committee; Mr. Burnaby in the Chair.

AMENDMENT TO THE ALIEN LAW.

Dr. Trimble rose in opposition to the first amendment, (which provides that the clause prohibiting aliens from sitting in either House of the Legislature be stricken out). He thought it was the wrong time to take action upon the matter, as it was so near to the close of the season. As it would change the whole political system of the country, it should be made a hustings question at the approaching elections.

Dr. Helmcken agreed with the Hon. Member from Victoria District. He considered that, as the general elections were so near, the matter should be referred for future consideration.

Dr. Tolmie had heard none speak against that measure outside of that House. He thought as a matter of liberality and justice, the amendments he proposed should be adopted.

The question was then put and carried by a majority.—Ayes: Messrs. Franklin, Tolmie, Foster, and Cary: Noes, Messrs. Trimble and Helmcken.

The next amendment provided that aliens five years after naturalisation, should be entitled to the privilege of sitting in either House.

Mr. Helmcken moved that the full privileges should be conferred at the time of naturalization.

After some discussion this clause was carried.

THE MUNICIPAL LOAN.

The bill to confirm the debentures issued by the corporation, and enforce the collection of assessments &c., then came under consideration.

Mr. Helmcken thought that the ordinance passed by the City Council, providing for the collection of their revenue, was very objectionable, in as much as it made the amount of taxes recoverable by suits before the Mayor. It was unconstitutional for law-makers to be law administrators.

Mr. Franklin observed, that the City Ordinance referred to contained a clause, prohibiting the receipt by the Corporation of the City tax on real estate owned by absentees, except from an agent holding a full power of attorney.

Mr. Helmcken said that another objectionable feature was that the revisors of the assessment roll were to be members of the Council, instead of independent persons.

Mr. Cary thought that the first objection might be met by providing that payment of the city revenues could only be enforced before *two* justices of the peace.

After some discussion upon this suggestion, the committee rose and reported progress.

THE INCORPORATION ACT.

Dr. Tolmie gave notice that he would move the following amendments to the Incorporation Act, viz.: That the City Council be required to publish an annual statement of the income and expenditure of the Corporation (the Corporation to cease to exist at the expiration of one year if this be not complied with) that the City Councillors receive no pay or compensation for their services, and that they be styled Councilmen instead of Councillors; that the accounts of the Corporation be duly audited, and that the Government Assessment Roll under the One per Cent. Tax Act, be the assessment for the City tax on real estate.

The House then adjourned until this (Tuesday) afternoon, when the estimates will be further considered in committee.

CITY COUNCIL.

MONDAY, Feb. 2.

The Council met at 7:20 p. m. Present—His Worship the Mayor and a full Board.

COMMUNICATIONS.

A communication from Mr. Thos. Trounce with respect to the premises taken by the Corporation, representing that the outlay he had made in adapting them for the purposes of the city authorities fully warranted the amount of rent demanded, was first read.

The Mayor expressed his opinion that they were the cheapest premises in town.

Mr. Copland dissented.

The communication was laid on the table.

A petition from Mr. Drake, praying to be exempted from constructing a sidewalk in front of lot No. 1270, on Collinson street, on the grounds that it was convenient for traffic to pass through, the proper road being impracticable, was laid on the table.

Messrs. Hicks, Lewis, and Searby were appointed a committee to inquire into the matter.

A petition from certain property holders on Yates Street, drawing the attention of the Council to the encroachment upon the street by a fence running from Douglas Street to the Ball's Head Tavern, and representing the injury they sustained by the same was read, and laid on the table to await a report upon the matter from the City Surveyor.

A petition from seven-tenths of the property holders upon the south side of Fort Street, praying the provisions of the Ordinance on Sidewalks be enforced upon that street, between the intersections of Quadra and Douglas streets.

Upon the motion of Mr. Searby the prayer was granted.

Two communications from the Secretary of the Gas Company, notifying the Council of their intention to lay certain service pipes, excited a good deal of discussion as to the condition of the streets.

The Mayor said it was notorious that the streets had been injured by the Company's operations, and he alluded particularly to Store street. He condemned the conduct of the City Inspector in not reporting the same to the Council, and suggested that if he did not properly attend to his duties, he should be discharged.

On motion of Mr. Stronach, it was resolved that if the necessary repairs were not made within five days, the Council would effect the same at the cost of the Company.

A petition from John Reilly, the volunteer scavenger, asking the Council to enforce payment for his services from the householders, was read and placed on file.

A communication from the City Surveyor, stating that he had made inquiry, but had obtained no further information respecting Public Reserves, was then read.

On the motion of Mr. Hicks, it was resolved that the Mayor be requested to communicate with the Surveyor General, and inquire from him by what authority the Reserves placed on the maps of 1852 and 1855 were made, and what were the original size of the same.

The report of the City Inspector of the delinquencies under the Sidewalks Ordinance was next read, and referred to a committee for examination. Messrs. Lewis and Reid were appointed.

DISTRESS!

The following petition was then read:

To the Worshipful the Mayor and Municipal Council of the City of Victoria:—We the undersigned, residents of the City of Victoria, having been for some months out of employment, and the means of supporting ourselves totally exhausted, pray that immediate measures be taken for the relief of the distress existing amongst us, either by the commencement of public works, or by other means that your hon. body may suggest, and your petitioners, as in duty bound, will ever pray, etc.

The above was signed by twenty-five persons.

Mr. Copland said he had been given to understand that if this petition had been longer in circulation, one hundred and fifty signatures, at least, might have been attached. He moved that a committee be appointed to suggest measures for the relief of the distressed.

The motion was seconded by Mr. Stronach.

The Mayor asked when the £5,000 loan would be available.

Mr. Hicks moved, as an amendment, that a committee be appointed with power to employ the distressed applicants in grading and macadamizing the streets.

Mr. Lewis said that other measures yet must be taken, and that be approved the original resolution. There were some distressed persons who were unable to work, and the committee should be empowered to provide bread, soup, etc., for them, as was done at home; and also to make arrangements for the supply of medical advice and comforts.

Mr. Searby suggested that some labor might be well employed in cleaning the streets.

Mr. Stronach thought that the Council had formerly resolved to have all public works done by public contract; but he considered that some action must be taken by the Council in this matter. He believed that the funds lately subscribed for the distressed in Lancashire would yet be wanted here. The English people had wealth enough to relieve that distress, and he himself had not so liberally contributed as he would otherwise have done, because he thought it right to devote a portion of his charity to the relief of local distress.

The Mayor said he believed that most of the distressed would rather work for their maintenance than be in the receipt of alms.

Mr. Copland suggested that some who would be unhandy with the pick and shovel, might be employed in breaking stone for sale to the contractors.

Mr. Reid said he should oppose any work being provided but by contract, as otherwise aspersions would be cast upon the integrity of the Council.

Mr. Copland's resolution was then carried, and Messrs. Copland, Stronach, and Hicks were appointed.

TAXES.

The by law regulating the enforcement and collection of the Municipal Trades Licenses tax came up for second reading.

In respect of one clause, Mr. Copland moved as an amendment, that medical practitioners be exempt from the appropriate tax for one year from the date of their arrival in the colony. Carried.

An additional clause proposed by Mr. Searby, appointing that appeals be made to the same Court of Revision as that under the City Real Estate act, with several minor particulars, was passed.

On the motion of Mr. Reid, the by-law, with the clause just added, passed a second reading.

STREET CROSSINGS.

The by-law to regulate street crossings, next came up for second reading.

On the motion of Mr. Searby, it was resolved that street crossings within the limits of the Ordinance on sidewalks, where required, be laid at the expense of the Corporation.

On the motion of Mr. Copland, an amendment to reduce the amount of the penalty was adopted.

The bill then passed a second reading with the amendments adopted.

MISCELLANEOUS.

Both of the above measures also passed a final reading.

The petition from property-holders on Pandora street, praying that delinquents be compelled to construct the sidewalk on the south side, was granted, on the motion of Mr. Copland.

Mr. Copland then moved that tenders be advertised for the construction of the same; also for that on the south side of Fort street. Carried.

On motion of Mr. Stronach, it was resolved that a committee be appointed to examine and report upon the specifications for the grading of Douglas street. Messrs. Stronach, Searby, and Lewis were appointed.

The meeting was then adjourned until Friday evening next.

SALE OF REAL ESTATE.—At Messrs. Franklin's sale, yesterday, property was knocked down at the following prices: Town lot 969, Yates street, near Cook street, $400; No. 976 corner of Yates and Cook streets, $580; No. 1061, Yates, near Cook street, $310; No. 75, corner of Douglas and Kane streets, $2850; three subdivisions of town lot No. 1203, on Collinson street, from $195 to $225; two subdivisions of town lot No. 1202, $205 and $230, respectively; town lot No. 1201, adjoining, $380; two subdivision lots of the Oakland Farm, containing 5 and 5 1-4 acres, $750 and $687; town lot No. 696, with tenements, $1600; No. 818, Yates street, $675; Nos. 703 and 720, corner of Blanchard and Herald streets, $910 and $805; No. 723, Chatham and Blanchard streets, $700; No. 605, Fisguard street, $1200; four lots on North Park street from $300 to $315; fifty acres of land in Victoria district, $1680, Nos. 46 and 47, subdivisions of suburban lot No. 19, $70 and $75.

WANTON DESTRUCTION.—We are informed by Mr. P. Claverie, a butcher in this city, that early on Sunday morning last, some evil disposed party pulled down about five hundred feet of the fence around his ranch about three miles from this city. The same individual, it is supposed, who was engaged in the above disgraceful action, afterwards went to the barn where the hay is stored and was stealthily creeping in, when the man in charge making his appearance, the ruffian hastily beat a retreat, going off in the direction of the Saanich road. It is believed that the fellow's intention was to set fire to the hay, and thus complete the destruction of Mr. Claverie's property. The proprietor has taken measures, however, which will prevent any such attempts in future, and parties had better be warned in time to avoid going about his premises after dark. The police should look out for these midnight depredators.

MESSRS. REEVES AND SEELIE'S BENEFIT.—An excellent bill has been prepared for this benefit, which comes off to-night. Shakespeare's great play of Hamlet will commence the performance, with Miss Mitchell and Mr. Waldron in the principal characters. The entertainment will conclude with Boots at the Swan, one of the most laughable pieces ever produced on this stage. Messrs. Reeves and Seelie, since their connection with the Theatre here, have won the favorable opinion of all play-goers, as well by their being artists of real merit, as by their gentlemanly conduct when off the stage. They are entitled to a good benefit, and we hope they will have it.

LANCASHIRE RELIEF COMMITTEE.—At a meeting of the Committee held in Mr. Franklin's office last evening, it was resolved to remit the funds at present in the bank, by first mail to England.

The subscription lists show about four thousand dollars in the aggregate, and it is anticipated by the members of Committee, that they shall be able to raise the amount in the course of another week, to close on five thousand dollars. The latter sum would be a noble contribution from a small community like ours. We believe arrangements are in progress for a concert to take place on behalf of the fund, to come off at an early date.

DISGRACEFUL.—We understand that the respectable inhabitants of Johnson street are very much annoyed by the disgusting scenes which are of daily and nightly occurrence among the Indians dwelling in the ravine between Johnson and Cormorant streets. These depraved wretches, while laboring under the effects of liquor, engage in rioting and other excesses, which have become so intolerable that it is the intention of the people in the neighborhood to apply for a policeman to be constantly stationed about the place to put a stop to such conduct. If a special night watchman were detailed for duty at that particular spot, the tradespeople around would cheerfully pay his salary. Something should be done in the matter.

FIRE IN A DWELLING HOUSE.—A fire occured on Saturday night last, in a house in Colonial Market Alley, by which property to the amount of about thirty dollars was consumed. Fortunately a number of persons were on the premises at the time the fire occured, and by their exertions its progress was arrested, and the house saved from destruction.

TO ADVERTISERS.—Letters in the COLONIST Office for C. E., C. L.

Assault Extraordinary.

Councillor Copland appeared before the Mayor yesterday morning, on a summons issued by his Worship, on the information of Mr. William Culverwell, charging him with assault.

Mr. Culverwell being duly sworn, stated that when addressing the Bench in another case, on the previous Monday, John Copland, who was then complainant, struck him several times on the shoulder, at the same time saying to him "Now, young man, &c." That he had then appealed to the protection of the court, and that his Worship had assured him that the court would protect him.

Defendant—How many times did I strike you?

Witness—Two or three times.

Were they very heavy blows?

You struck me.

You must answer my question.

Well, they did'nt wound me, but I felt them.

Now, do you think that I had any intention of assaulting you?

I am sure I can't say. I can't tell what your thoughts were.

But I must have an answer.

Well, then, I know you did assault me, John Copland, and I think it might have been your intention to do such a thing to me. It is hard for me to tell what your intentions might be towards me.

Did you think of laying this information at the time of the alleged occurrence, or was it an after thought.

I didn't think of it at the moment, I must confess; but I applied for a summons at the earliest opportunity.

Mr. Colquhoun, City Inspector, was then called. He was in Court at the time of the alleged occurrence. Didn't see any blow struck, but heard the complainant demand the protection of the Court.

Complainant—Now, Mr. Colquhoun, speak out, and don't be afraid of Mr. Copland or about your situation.

Cross examined by Mr. Copland—Witness thought if blows had been struck, he should have seen them.

Mr. Dennis was next called. He said he had attended the Court on professional business, and had not seen the alleged assault; he thought he remembered the complainant's seeking the protection of the Bench.

By Defendant—Thought if a blow had been struck he should have seen it.

By Complainant—It might have occurred without his seeing it.

Some irrelevant questions about the practice of Courts of Justice in such cases, put by the defendant, were overruled by the Bench.

Mr. Somerville swore that he had seen Mr. Copland tap the complainant several times on the shoulders, when he had interrupted him by speaking while he was addressing the Bench, and heard him say "Now, young man, etc."

Mr. Copland then addressed the bench, stating that he did not know how his action should have been misconstrued into an assault, of which he was certainly guiltless in intention; and that he was never more astonished in his life than when he received the summons.

Mr. Culverwell asserted that the case was fully proved, as the defendant's own witness had sworn to having seen the assault He asked that the defendant be bound over to keep the peace towards him.

His Worship reserved his decision saying that he would state his determination on Monday next.

SALT SPRING ISLAND SETTLEMENT.—Through a recent arrival from this settlement we learn that on the north side of the Island there are 22 claims taken up and occupied. No less than 14 houses, some of them having farm buildings, etc., annexed, have been erected. The Stone Cutting Co. (4 in number) occupy the extreme north end. The extreme southernmost claim of the 22 is distinguished by a wharf 2000 superficial feet (40x50), built with cribs filled in with stone and covered with new 3-inch plank. A store for receiving goods and storing provisions has been erected there. We shall soon have news from the remaining portion of this flourishing settlement, including Fulford Harbor and Burgoyne Bay. Through roads will shortly be cut connecting the various parts

HO! FOR CARIBOO.—We understand that Mr. S. Hilton, who only arrived in this city last week from Williams Creek, purposes returning there on the arrival of the steamer from San Francisco. He intends carrying a mail, and any one desiring to send letters to Cariboo or any place *en route*, should call immediately upon him at the St. George Hotel, View street. His terms will be found moderate, and every reliance may be placed on his faithfully carrying out any business that may be entrusted to him.

LIBERAL CONTRIBUTION.—The sum of $100 subscribed by the Congregation Emanuel, towards the fund for the relief of the Lancashire operatives, was yesterday brought to the COLONIST office by Mr. Blackman. When we consider that this portion of the community are now straining every nerve towards raising the amount required for the erection of their synagogue, we must look upon this as one of the handsomest contributions yet subscribed for this charity.

VICTORIA THEATRE.—The performance last evening was really excellent, and deserves the highest praise. Miss Mitchell, Miss Devine, and Mr. Waldron, in the "Lady of Lyons," surpassed their usual efforts, and carried the feelings of the audience with them throughout the play. The afterpi ce was well sustained by the company, and was provocative of side-splitting laughter.

DERANGEMENTS OF OUR COAL FIELDS.—It will be seen by advertisement that Mr. Landale will deliver a lecture on this subject in the Exchange News Room this evening. Mr. Landale is a mining engineer by profession, and has devoted a great deal of attention to coal mines especially, and we have no doubt is fully competent to do justice to the subject he has chosen. We hope there will be a large attendance.

SUPREME COURT.—The jury yesterday returned a verdict, in the case of Harris v Dougall and Son, in favor of the plaintiff, for the sum of $150 (the amount sued for) with costs.

SALE OF CROWN LANDS.—The sale of Crown Lands, upon which the instalments have not been paid, was yesterday postponed until Monday week.

ASSAULT.—The case of Bankart v. Cranshaw was dismissed yesterday morning owing to the non-appearance of the complainant. Mr. Ring appeared for the defence.

ROYAL HOSPITAL.—There were twenty-nine patients in this institution yesterday, nine of them being in the small pox ward. One person died in the latter on Sunday.

ARRIVED.—The brig T. W. Lucas arrived here yesterday from San Francisco. She left that port on the 22d ult., and was eleven days on the passage.

THANKS.—We are indebted to Capt. Anderson, of the brig T. W. Lucas, for copies of late San Francisco papers.

England.

The Great Exhibition Building in London is to be turned into a railway station.

The London *Times* authoritatively declares that Prince Alfred will not accept the throne of Greece. His mother thinks it would not be proper.

It is officially announced that the marriage of the Prince of Wales will take place at St. George's chapel, Windsor, and not, according to precedent, at the Chapel Royal, St. James'. It is added that the Lord Chamberlain has received the Queen's commands that the ceremony shall be celebrated with the utmost magnificence. A list is also given of the household of the future Princess of Wales—the Marchioness of Carmarthen, the Countess of Macclesfield, the Countess of Morton, and the Countess de Grey are to be the ladies-in-waiting, and Lord Harris will be at the head of the household of the Princess. No date is given, but it is understood that the happy event will take place earlier than the time originally fixed—April next. The marriage, in all probability, will be solemnized in the early part of March.

Arrival of the T. W. Lucas.

FOUR DAYS LATER NEWS.

By the arrival of the brig T. W. Lucas, from San Francisco, we have four days later news from the seat of war.

WASHINGTON, Jan. 21.—It is given out at the State Department that they have highly cheering advices from Europe, particularly from England, giving account of the popular reaction in our favor. Unofficial advices also represent that the middle and lower classes are exerting a hearty influence on the Government on our behalf, and in the State Department they go so far as to speak of late advices precludes the possibility of intervention for months to come.

The French Spoliation bill, reported yesterday, provides that satisfaction for an amount not exceeding five millions be made to American citizens for their claims for indemnity against the French Government for illegal captures prior to the treaty of 1800.

Refugees who arrived from Richmond yesterday, represent that the city is well fortified on every point, the fortifications, however, being garrisoned but by a small force. The main body of the rebel army is said to be about midway between Richmond and Fredericksburg, on the railroad.

At request of the Secretary of War, Senator Howe, of Winsconsin, has gone to that State for the purpose of getting rid of the decision of its Supreme Court against the constitutionality of the draft, and the right of the President to suspend the writ of *habeas corpus*. A case is to be made up immediately and submitted to the United States Supreme Court, now in session here, in time for argument this term, before Chief Justice Taney.

In the House, yesterday, a resolution was passed declaring Vandevere, the member from Iowa, not entitled to his seat in the House. Vandevere holds a colonel's commission in the army. The question was raised that the Constitution, in such cases, required the vote of two thirds of the members, which the Speaker overruled. The decision of the chair was appealed from, but before the vote was taken on the appeal, the House adjourned.

The case excites considerable attention from the fact that the principle involved in the decision applies to a number of generals and colonels now members of the House; and unless the appeal is sustained, several seats will be declared vacant, and in the opinion of some able lawyers of the House, Generals Schenck, Garfield and other military officers elected to the next House, will have their seats declared vacant and new elections ordered, if they continue in military service after the 4th of March.

NEW YORK, Jan. 21.—The Liverpool Chamber of Commerce have adopted a resolution to give a suitable reception to the officers of the first ship coming from America with provisions for the distressed operatives, and to convey to the liberal donors their appreciation of their generous, friendly and spirited action.

The New York Chamber of Commerce have referred the resolution, regarding the Alabama, to a Standing Committee.

Most of the English journals attack the *Times* with great bitterness, and indignantly repudiate its recent advocacy of slavery on scriptural grounds. The Liverpool *Post* thinks a reaction will take place, and confidence be lost in the journal which unblushingly justifies slavery. The *Army and Navy Gazette* says the Confederate generals have been over-praised. Their great strength has been to stand a fight; not one of them seems to have made a campaign with any purpose, and not one has had the capacity to understand the value of a victory, and has never followed one up.

Montevideo advices state that disturbances have lately occurred there. It was supposed they were part of a conspiracy against the Government, and many persons have been arrested, including the captain of the Argentine steamer Moray. The general opinion, however, is that the alarm will very soon be over.

A Washington letter says that the material facts, in the case of Gen. Stone, will soon be published. The evidence against him is of a circumstantial character, going to show that he was friendly towards the rebels, and became their mail carrier; but, after all, this may have been only a kind disposition to oblige.

ST. LOUIS, Jan. 21.—A report has been received at headquarters to the effect that part of Gen. Herron's force, in Northwest Missouri, had succeded in capturing Marmaduke and a portion of his command, by intercepting them on the retreat into Arkansas. The statement, however, is regarded as needing confirmation.

WASHINGTON, Jan. 21.—In the House to-day, a motion to lay on the table an appeal from the Chair yesterday, in Vandever's case, was carried, 82 against 36. The motion was then made to reconsider the vote by which the resolution passed, carried, 79 against 64.

NEW YORK, Jan. 21.—Mexican advices of December 31st, show that there has been no advance by the French on Puebla.

NEW YORK, January 20th.—The *World* says that a letter from a correspondent with the Army of the Potomac states that the army is under marching orders with three days' rations. Five pontoon bridges will be thrown across the Rappahanock, some distance apart. Lee's army is composed of eight large divisions, Jackson commanding the right and Longstreet the left, and it is uncertain whether their total strength equals ours. A desperate struggle is evidently near and stirring news may be expected shortly.

The brig Drummond, at Aspinwall, from New York, reports she saw the pirate Alabama, December 23d, off the east coast of Cuba.

A severe earthquake occurred at Guatama'a, Dec. 9th, which destroyed two towns and a great deal of damage to buildings in all places was done.

The Champion, for Aspinwall, is detained until Thursday.

PHILADELPHIA, January 20.—The *Inquirer* has a Port Royal letter of the 17th, stating that six deserters from Fort Sumpter, Charleston, had arrived aboard a blockading vessel, reporting that most of the garrison had thrown down their arms, refusing to fight any longer, being half famished and their families in want, owing to the non-receipt of pay. Other troops, however, had arrived, and obliged them to return to their duty. The disaffection among the rebel troops is wide spread. The men worked day and night, and were half starved.

The gunboat Wissahickon recently drove the rebels out of a battery on Branch Island. They afterwards returned, and put a shot into her which nearly sunk her.

WASHINGTON, January 20.—Advices from the Army of the Potomac to-night are not important. Yesterday the enemy commenced massing their artillery on the different fords of the Rappahannock above Falmouth, and during Saturday and Sunday nights redoubts were made far up the river.

Some refugees have arrived from Richmond. They report that the week previous to their departure there was great excitement in Richmond, in consequence of a report that a Federal force, numbering 80,000, was on its way to Weldon, N. C., and that a large fleet of gunboats were in the waters of that State. Anderson's division of Jackson's army, numbering 15,000, had passed through Richmond on their way to North Carolina. This added much to the excitement.

The Senate Committee on Foreign Affairs reported the old French spoliation bill again, to-day. This has been pending before Congress for twenty years.

The Commissioner of Internal Revenue made a report to Congress, to-day, that from careful investigation instituted into the several sources of revenue, he estimates that there will be received from all sources, except stamp duties, during the current year, ending the 30th June, nearly sixty-two-millions dollars; and from stamp duty, during the same period, fifteen millions dollars. He assumes, further, that without material changes in the business of the country, the revenue from the same sources for the fiscal year of 1863-64, will not be less than $150,000,000.

VANCOUVER ISLAND COLONY.

Public Notice.

ALL PERSONS HOLDING LAND IN ANY OF THE SURVEYED DISTRICTS are notified that unless the Instalments due by them are paid into the Land Office on or before the FIRST DAY of FEBRUARY next, such lands will on that day be forfeited and resold at Public Auction on the SECOND DAY of FEBRUARY, 1863.

Bona-fide settlers actually cultivating their farms and unable to pay in full, will be allowed, if they show good reason to the Surveyor General, to pay a sum proportionate to their ability. Application for this purpose must be made to the Surveyor General, personally, on or before the Twentieth Day of JANUARY inst.

The Sections of land in respect of which Instalments are due are stated in the Schedule hereto, with the names of the persons who are believed to be the owners.

J. DESPARD PEMBERTON.
Surveyor General.

DR. WM. HALL'S BALSAM CURES ALL DISEASES OF THE LUNGS AND THROAT.

TO CONSUMPTIVES.—Every sufferer from Consumption, in whatever stage, should try DR WM. HALL'S BALSAM FOR THE LUNGS, and prove to his own satisfaction that this disease can be cured even if the symptoms are very discouraging. This Medicine acts like a charm in subduing the Cough, and restoring health to the whole system. For sale by all Druggists. REDINGTON & CO. Wholesale Agents, 416 and 418 Front street, San Francisco. Ja9 1m

Dr. Baker's Pain Panacea.

IS composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases If they are not satisfied with its healing properties, the money will be cheerfully refunded by the Agent where the medicine is for sale.

If you have Pain in the Stomach or Bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dispepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat apply the Pain Panacea to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhœ, or a relaxed state of the bowels, take a few doses of Pain Panacea and they will soon be restored If you have a painful swelling bathe the parts freely and you will soon relieve the pain, and the swelling will be reduced. If you have a severe toothache, apply the Pain Panacea on a piece of cotton, and bathe the gum at the same time; it will stop the pain instantly.

If you have a pain in the Side, Breast, Back, or Kidneys, bathe the parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a Caked Breast, apply the Pain Panacea as hot as can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls on your horse, apply the Pain Panacea; it will take out all the inflammation, and heal the sore in a short time. Sold by all the principal druggists, and by

MACHINE POETRY.

By Mike Cohen.

A miner from the Diggings once came down,
Whose wretched aspect was perceived by all the town;
His boots were soleless, and his pants were torn—
In fact, he looked an object, quite forlorn
He sought a bed—but where to get that bed
He did not know nor where to rest his head:
While pondering this, a good sight met his view;
The El Dorado Beds—price 50 cents, and 5 and 20 too.
"Lets have a quarter's worth," our miner said,
And, quick as thought, he soon in bed was laid;
He slept a weary sleep, and the next morn arose,
The more refreshed, for he had doffed his clothes.
Those pants he did not wish again to wear,
And thought perhaps his host would send out for a pair:
He called out for the landlord, and much surprised was he,
Our friend Mike Cohen, or the "Red House," there to see.
"What, Mike, you in this line!" our miner said:
"Then bring me up some pants, and something for my head."
Mike brought them up, and quick as thought,
Our friend the miner a new suit had bought,
Paid down his money, then, looking in the glass,
His compliments to Mike he thus did pass:
"Whene'er a man wants rigging out in something new,
For little money, Mike, I'll send him straight to you.
And now, friend, Mike, pray tell me where
For breakfast I can get good fare?"
"'Tis but next door, a Restaurant I keep:"
Says Mike, "and you will find it good and cheap!"
The miner went, and breakfast had,
And said that for a quarter 'twasn't bad;
For Mike, I see, knows how to do the trade,
And put all others right into the shade. Ja13

Victoria, Sept 10th, 1862. Ja23

Victoria & Esquimalt Railway Co., Limited.

Capital £50,000, in 1000 Shares of £50 each.

Provisional Board of Directors:

THOMAS HARRIS, Esq., Mayor of the City of Victoria;
ALFRED WADDINGTON, Esq.;
ALEXANDER DAVIDSON MACDONALD, Esq.;
CHARLES WENTWORTH WALLACE, Esq.;
ALFRED FELLOWS, Esq.;
THOMAS LETT STAHLSCHMIDT, Esq.

ABRIDGED PROSPECTUS.

THE OBJECT OF THIS COMPANY IS to establish Railway communication between Victoria and Esquimalt, and thereby to provide for passengers and goods a more speedy and easy mode of transit than that which now exists.

This end attained, the delay and expense now necessarily attending vessels of large tonnage, bound for Victoria, but compelled to discharge their cargoes at Esquimalt, will at once be obviated.

Esquimalt, naturally the commercial port of the City of Victoria, would occupy, in nearly every respect, the same position which Sandridge does to Melbourne, or Greenock to Glasgow.

Its marked adaptability as the present terminus for Ocean Steamships (several of which connect monthly with San Francisco); the certainty of its being the future terminus of the line of Steamers between this port and Panama; its commanding importance as Her Majesty's principal Naval Station on the Pacific, when taken in connection with its deep and capacious harbor, easy of access at all times, and admirably sheltered, cannot fail to give additional impulse to that commerce which is now so rapidly extending

The Railway will be built in an inexpensive manner, a due regard, however, being paid to durability and completeness.

The line of Road being nearly level throughout, and presenting no engineering difficulties of any moment, it may safely be predicted that in less than eighteen months from the day when ground is first broken, the line will be open for traffic.

The Reports of the Engineer and Surveyor leave no doubt that the capital proposed to be subscribed will fully cover the cost of construction, purchase of Locomotives, Rolling stock, etc., and leave besides a considerable surplus for working and other expenses.

The Directors calling to mind the past traffic between Victoria and Esquimalt, and confident of that which is sure to follow (so soon as the fact of the richness of our gold-fields becomes more widely known), do not hesitate to assert that the returns from an investment of capital in an undertaking of this nature, cannot but prove highly remunerative.

Forms of application for Shares may be obtained at the temporary offices of the Company, at the office of Mr. J. J. Cochrane, Government street Applications for shares must be made on or before the 10th day of December next.

(With power to add to their numbers.)

Capital of the Company---$75,000.

SHARES---$50 apiece.

THE OBJECT OF THE COMPANY IS the supply of the Town of Victoria with an adequate supply of wholesome water from Elk Lake, Prospect Lake and Spring Ridge.

The estimated expense of completing the entire works is $72,000.

The intention of the Company is to form a Reservoir on the Spring Ridge, to carry the water thither from Elk Lake by means of ditches and flumes, and to conduct the water from the Reservoir into a central spot in the city, and sell it there at a low price, until the arrival of the iron pipes from the manufactory.

Upon the arrival of the necessary pipes and the completion of the necessary cisterns, it is proposed to lay the water on in the buildings and dwellings in the principal streets of the city, and to connect the supply from Elk Lake by a flume from Prospect Lake striking a reservoir half way between Elk Lake and Victoria, in order to afford the greatest possible amount of water.

The Company has taken the necessary steps for obtaining an Act of the Legislature to authorize its undertakings, which will be prosecuted without delay.

All persons desirous of obtaining Shares in the above Company may do so by applying at the temporary office of the Company, situate on Government street, Victoria, on or before the 24th day of January, and by signing the form of application which will be there provided.

The Directors will within seven days after the 31st day of January, allot the shares to such substantial applicants as may have applied previously to the 25th of January, in a fair proportion.

Plans and Sections of the Work may be seen at Mr. Cochrane's office, after the 12th instant.

Bilious Affections,

LIVER COMPLAINTS,

SICK HEADACHE, DYSPEPSIA, &c.

JAYNE'S SANATIVE PILLS,

A Mild, Prompt, and Effective Remedy.

There is scarcely any disease in which purgative medicines are not required; and much sickness and suffering might be prevented were they more generally used. No person can feel well while a costive habit of body prevails, besides, it soon generates serious and often fatal diseases, which might be avoided by timely and judicious use of proper Cathartic medicines.

Convinced of the correctness of these views,

JAYNE'S SANATIVE PILLS

Are recommended with the greatest confidence, experience having demonstrated them to be far superior to any other in use, being more mild, prompt, safe and uniform in their operation. While using them no particular care is required, and patients may eat and drink as usual. Age will not impair them, as they are so combined as to always readily dissolve in the stomach. In small doses they are alterative and gently laxative, but in large doses are actively cathartic, cleansing the whole alimentary canal from all putrid, irritating and fecal matters.

For DYSPEPSIA, these Pills are really an invaluable article, gradually changing the vitiated secretions of the Stomach and Liver, and producing healthy action in those important organs. In cases of long standing, a cure will be more speedily effected by using, in conjunction with the Pills, e their Jayne's Alterative or Tonic Vermifuge, according to directions.

For Liver Complaint, Gout, Jaundice, Affections of the Bladder and Kidneys, Fevers, Nervousness, Disease of the Skin, Impurity of the Blood, Sick Headache, Costiveness, Piles, Female Diseases, and Bilious Affections, these Pills have proved themselves eminently successful. All that is asked for them is a fair trial.

The SANATIVE PILLS and all of Dr. D. Jayne's Family Medicines are sold by CURTIS & MOORE and LANGLEY BROS., Victoria, from whom may also be obtained "Jayne's Medical Almanac and Guide to Health," containing, besides a valuable Calendar, a catalogue of Diseases, together with the symptoms by which they may be known and the proper remedies for their cure. no16 1m

HEALTH FOR A SHILLING

Holloway's Pills.

Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the whole system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove bile, giddiness, head aches, and palpitation of the heart.

Weakness and Debility.

of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ever be without them.

Coughs, Colds, and Asthmas.

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head—Diseases of the Heart.

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents, Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise, and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.
